Ques S Assign 3 spirite ## 女井下ろうろこ

		>		- Carrier - Carr
A305	Level 4	Level 3	Level 2	Level 1
communication	Nothing assumed, catching errors, anticipating users needs - beyond Level 3	Comments - useful sincinct, (block OK) not sparse, block at top (modifications start date, programmer name problem description. Notes on anything special or unusual, citations)	lacking explanation, inline coments, or hard to read, or spelling mistakes on output or Progammer missing or modifications	Any two or more details missing or Citations/borrowed work not acknowledged OR more than 25% of code borrowed
	Excellent	Readability - code is easy to follow, enough white space	Adequate	Needs improvement
4	User instructions that are clear and can be accessed at any time or Aditional options. Ike premature quit	user interface clear language, no grammar or spelling errors	2 or 3 grammar or spelling errors	User interface not dear, poor language and or spelling and grammar errors
special	Avanced dass concepts or similar more advanced coding - not required or not taken in class OR new or better impiementataion of class work. Sprite heroord basics over	Proper class usages and storing of data - Basic sprite implemented property	Considerable usages and storing of data, few minor errors and/or basic sprite not implemented property	hard coded words and forgot to fix errors and/or basic sprite not working
Thinking & inquiry	Description arter to clarity	Por proper char (headings), stabs,	Under Steps of incorrect terminology	nation in columns or steps missing
Thinking &	Screen sizes to user systems. Make it interactive. Colour or design helps user know what stage they are at.	Graphics are appropriate and professional looking for Hangman - word list appropriate components - Standard screen size 1280 x 1024	Small graphics, features not intuitive	No graphics, just console that user would not necessarily have. Lost count on number of guesses.
	2	Trace statements - venable name, steps and charges (Tablelenari)	Vapable hames don't make gumissed a	recognize il
Application	Could be crass based	All functions (including user) are efficient and work as expected	Functions work but confusing or inefficient	defined function or built in would suffice
	Highly efficient, best possible, perhaps found a new function or way to complete the task	Code efficiency - nested if's better into function or class	Nested it's or lack of proper loops - does not take advantage of built in functions	No functions or classes
Flowchard/IPO/TA ace Table (Application)	understanding, inou	Fibragal - Organized, proper spacing correct symbols, proper language	Popr specing, some inberrect symbols, typing errors.	symbols used incorrectly for the concept attempting to donyels. Among section or incorrect pointer
