somoul ##	somes & Ones	Eumsst h	Thurse cond class##	255##
4304	Level 4	Level 3	Level 2	Level 1
communication	Nothing assumed, catching errors, anticipating users needs - beyond Level 3.	Comments - useful sincinct, (block OK), not sparse, block at top (modifications, start date, programmer name, problem description, Notes on anything special or unusual, citations)	explanation, inline coments, or read, or spelling mistakes on r Progammer missing or tions	Any two or more details missing or Citations/borrowed work not acknowledged OR more than 25% of code horrowed
	Excellent	Readability - code is easy to follow, enough white space		Needs improvement
	User instructions that are clear and can be accessed at any time or Aditional options, like premature quit.	user interface, clear language, no grammar or spelling errors	l 1 2 or 3 grammar or spelling errors	User interface not clear, poor language and or spelling and grammar errors
Knowledge	With open or similar more advanced coding - not required or not taken in class OR new or better implementataion of class work	of	Considerable usages and storing of h data, few minor errors	hard coded words and forgot to close files
Thinking & inquiry	Description at top to clarify	IPO - proper chart (headings), steps, proper terminology	nect terminology	missing information in columns or steps missing
Thinking & inquiry	Screen sizes to user systems.  Make it interactive. Colour or design helps user know what stage they are at.	Graphics are appropriate and configuration of the second c		No graphics, just console that user would not necessarily have. Lost count on number of guesses.

more confusing, complicate the

Trace statements - variable name. Variable names don't match or missed a existing error, or do not

Hard coded where a user defined function or built in would suffice symbols used incorrectly for the arrows in the wrong section or concept attempting to convey, poor organizations, many No functions or classes (6.55) = recognize it. + Callsown class - (no dorigión you spacing, correct symbols, proper Poor spacing, some incorrect symbols, language typing errors, Code efficiency - nested it's better does not take advantage of built in Nested if's or lack of proper loops Functions work, but confusing or inefficient functions step steps and changes (Table/chart) All functions (including user) are efficient and work as expected Flowchart - organized, proper into function or class. perhaps found a new function or colouring to add to understanding, input one colour/output another Highly efficient, best possible, way to complete the task Could be class based Flowchart/IPO/Tr (Application) Application
